PAPY T / DESIGN COLLECTION

FORM / FUNCTION

Forty projects. Six design disciplines.

Editorial, identity, spaces, products, services and evidence.

40

2026 / A SELF-INITIATED DESIGN PORTFOLIO

THE COLLECTION

Design, shaped by context.

This book brings together forty approved editorial and visual communication studies.

Each case is shown through three curated boards - a project introduction, consecutive working pages, and a selected detail.

The work ranges from identity and hospitality through technical publishing, service experiences and research-led communication.

ABOUT THE WORK

This is a portfolio of self-initiated or fictional studies. Claims of actual commissions, audited operations, or built work are not implied.

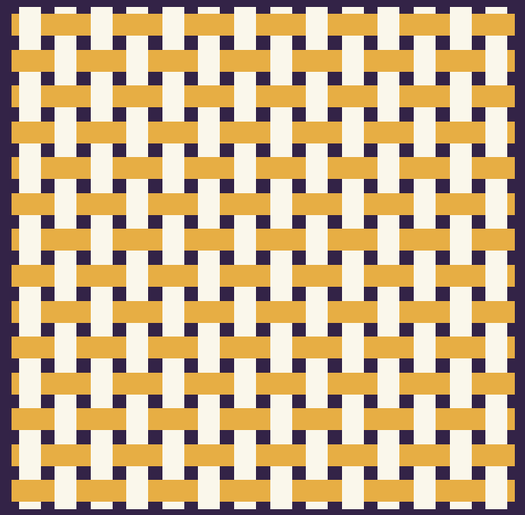
PATTERN

BOARD 1 / 3

PATTERN / DESIGN PORTFOLIO / STUDY

MATERIAL REFERENCE / VOLUME 01

PAT TERN



Native studies of
warp, weft and scale.

Structure becomes sur-face.

An original native-vector weave study exploring warp, weft, re-peat and scale; not a claim about a manufactured textile.

BOARD 1/3 / NATIVE SOURCE / WORK IN PROGRESS

PATTERN

BOARD 2 / 3

PATTERN / DESIGN PORTFOLIO / STUDY

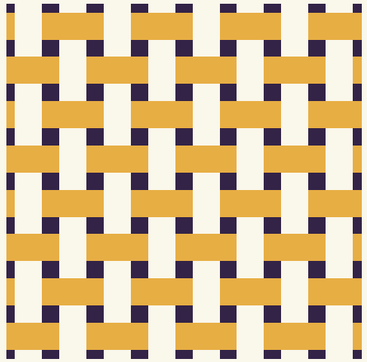
Crossing, repeat, variation.

PATTERN / SURFACE

One surface.
Two directions.

Warp runs through the plate. Weft crosses it. At each intersection, the drawing records which ribbon passes above.

These native graphic studies show a repeat clearly. They do not establish the fibre content, performance or construction of a real textile.



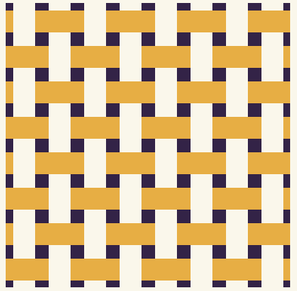
A / ALTERNATING CROSSINGS

Original vector plate; not a microscopic image.

02

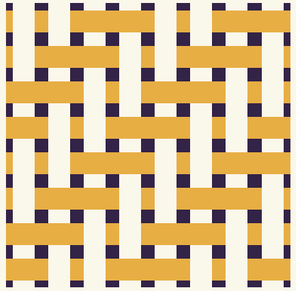
PATTERN / CROSSING

Read the crossing.



A / Alternate at every crossing.

A compact repeating unit.



B / Shift a paired crossing.

A diagonal emerges from repetition.

03

Consecutive vector plates show how a repeating structure creates distinct visual rhythms.

BOARD 2/3 / NATIVE SOURCE / WORK IN PROGRESS

PATTERN

BOARD 3 / 3

PATTERN / DESIGN PORTFOLIO / STUDY

From vector repeat to surface.

PATTERN / COLOPHON

Give texture a reference.

A six-page editorial material study with a consistent index, original crossing diagrams and an explicit distinction between artwork and verified material data.

Design and editorial direction: Ayobami.

All plates are native vector artwork authored for this portfolio.

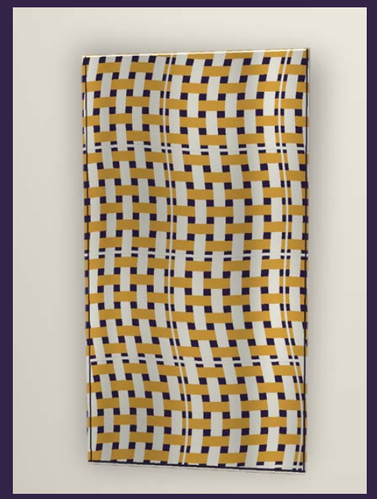
Fonts: Liberation family; licence included.

Self-initiated study. No supplier inventory is claimed.

DIGITAL TEXTILE STUDY / Original weave vectors mapped to a speculative draped surface. Material specifications remain unverified.

06

PUBLICATION PAGE 6 / ORIGINAL VECTOR STUDY



SPECULATIVE TEXTILE APPLICATION / Original motif; no verified manufacturing or fibre claim.

BOARD 3/3 / NATIVE SOURCE / WORK IN PROGRESS

DAILY FORM

BOARD 1 / 3

DAILY-FORM / DESIGN PORTFOLIO / STUDY

A daily-care ritual, made legible.

Self-initiated personal-care packaging: coordinated range labels, usage hierarchy and botanical reference imagery.

BOARD 1/3 / NATIVE SOURCE / REVIEWED EDITION

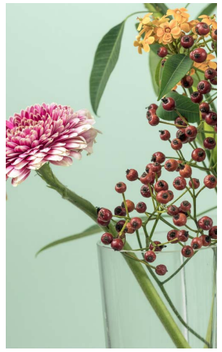
DAILY FORM

BOARD 2 / 3

DAILY-FORM / DESIGN PORTFOLIO / STUDY

From product identity to range.

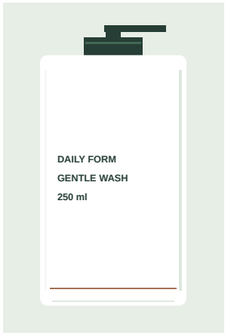
A simple daily ritual.



A small collection is easier to navigate when each product has one clear role. The catalog separates everyday cleansing, moisture and a richer finishing step. Sample formulas and prices are illustrative; no health or performance claims are made.

01 / CLEANSE

Gentle wash



A wash-off format for everyday use.

Sample pack size: 250 ml

Illustrative price: £18

Label direction: pump, rinse and recycle according to local guidance.

No finished formula is represented.

The early product pages reveal label consistency and product differentiation.

BOARD 2/3 / NATIVE SOURCE / REVIEWED EDITION

DAILY FORM

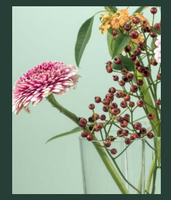
BOARD 3 / 3

DAILY-FORM / DESIGN PORTFOLIO / STUDY

The range is a system.

Less noise.
More clarity.

A botanical catalog study with editable packaging graphics and consistent product information.



PHOTOGRAPHY / flower: Maarten Deckers maartendeckers / CC0 / https://commons.wikimedia.org/wiki/File:Flowers_-_2_(Unsplash).jpg

Images cropped in layout. Self-initiated publication study.

BOARD 3/3 / NATIVE SOURCE / REVIEWED EDITION

Final range/index page shows product relationships, not verified consumer claims.

PUBLICATION PAGE 6 / REVIEWED EDITION PROOF

GRIDSHIFT

BOARD 1 / 3

GRIDSHIFT / DOCUMENT SYSTEMS / EDITORIAL STUDY

GRIDSHIFT / PRACTICE PAPER 01

The document is part of the workflow.

A practical framework for clearer internal operating documents.

AUDIENCE | TRIGGER | DECISION | STOP

SELF-INITIATED EDITORIAL PRACTICE / AYOBAMI

PORTFOLIO STUDY | 1 / 03

Decisions need a clear interface.

A practical document design system built around the next decision: who acts, when, and with what information.

AUDIENCE

TRIGGER

DECISION

STOP

GRIDSHIFT

BOARD 2 / 3

GRIDSHIFT / DOCUMENT SYSTEMS / EDITORIAL STUDY

From four questions to one clear gate.

GRIDSHIFT / PRACTICE PAPER 01 / FRAMEWORK

Four questions before writing.

01

Who will use it?

Choose terminology the reader understands. Define what they already know.

02

When will they read it?

Put the trigger near the beginning. State the conditions for use.

03

What must they decide?

Make the options easy to compare. Show the next action for each result.

04

Where should they stop?

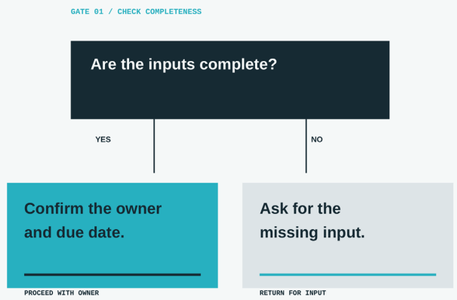
Name the limit of the instruction. State when to ask the owner for help.

03

GRIDSHIFT / PRACTICE PAPER 01 / INTERFACE

The first page is a working interface.

Example: a work request with incomplete inputs. The drawing models an editorial route; it is not a company procedure.



Keep context beside the decision it affects. A short route is useful only when the conditions are clear.

04

DECISION DESIGN

The questions define the reader’s needs. The next page converts missing information into an explicit action.

ACTUAL CONSECUTIVE PUBLICATION PAGES 03-04

PORTFOLIO STUDY | 2 / 03

The space between

QUARTERLY / ISSUE 01 / AUTUMN 2026

Cloth in motion / 06 The work of a seam / 12
The useful object / 18

SILENCE QUARTERLY

BOARD 2 / 3

Material becomes movement.

Held in motion

Movement lets the cut become visible. A garment must make room for the next step, not only hold a shape for the camera. The following original jacket study brings that question back to its seams.

White dress in movement. Photograph: Alina Skazka / Pexels18444259. Wardrobe reference, not a directory product.

STORY ONE / 01

A wardrobe with room to move

Ease begins with the distance between cloth and body.

Reach. Sit. Raise an arm.
Test the outline in use.

Original garment study / SQ01. Editorial drawing, not a graded production pattern.

The first thing you notice about a comfortable jacket may be what you do not notice. There is no tug at the back when you reach for a cup. The sleeve does not drag the shoulder upward. The hem returns to its place when you sit down. A good fit can be almost uneventful.

That uneventfulness is designed. A pattern must anticipate movements that will never appear in a still photograph: bending to tie a shoe, holding a rail, lifting a bag. Extra width can help, but width alone is not ease. A large garment may still restrict the arm if the sleeve and shoulder have been drawn without the body's movement in mind.

At a fitting, start with the task rather than the mirror. Reach forward. Cross your arms. Sit in a chair for a minute. Notice where the cloth stops following you. Then look at the outline. The two observations belong together; neither has to win at the expense of the other.

This is not an argument for making every garment loose. A close shape can be comfortable when its material, cut and intended use agree. The question is whether you are choosing that shape deliberately or managing it throughout the day. A waistband that requires constant adjustment is asking for your attention.

Our wardrobe study begins here: with a little less managing. The aim is a selection of clothes that can accompany different days without turning each change of plan into a change of costume.

CONSECUTIVE PAGES 5-6 / GARMENT IN USE, THEN AN ORIGINAL FORM STUDY

SILENCE QUARTERLY

BOARD 3 / 3

From outline to specification.

SQ01 / RESTLINE JACKET / ACTUAL PUBLICATION EXCERPTS

SQ01 / Renn & Fold

Restline jacket

GBP 185

A straight, unlined jacket intended to sit over a light knit. The lower pockets are placed for a relaxed hand position; the plain cuff leaves room for a straightforward length adjustment. A moderate weight gives the outline definition without making the jacket the heaviest part of an outfit.

ITEM / MAKER	MATERIAL	SIZE / DIMENSIONS	GBP
SQ01 / Restline jacket Renn & Fold	Cotton twill	XS–XL	185

Pages 24 and 26 link the authored form, intended use, material, size range and price. The drawing is an editorial study; it is not a graded production pattern.

LINDEN-COURT / ARCHITECTURE / RESIDENCE

Linden
Court

Space for the life
you lead.

RESIDENCES / FOUR LAYOUTS

Printed window effect / interior reference

Space for the life you lead.

A residential concept guide that compares daily use through room proportions, illustrative floor plans and an honest set of source-image disclosures.

PORTFOLIO STUDY / BOARD 1 OF 3 / REVIEWED EDITION

LINDEN COURT

BOARD 2 / 3

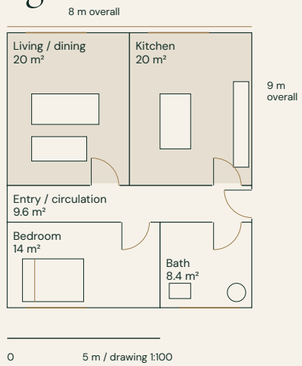
LINDEN-COURT / ARCHITECTURE / RESIDENCE

One bedroom / Two bedrooms

LINDEN COURT / LAYOUT A

One bedroom. A generous first room.

A wide living and dining band makes the one-bedroom layout adaptable. The bedroom sits behind the quieter edge of the plan. A shared entry corridor connects the living spaces, bedroom and bath. Compare the 72 m² diagram footprint with the 8 m² terrace allowance. Areas are schematic: no construction wall build-up has been deducted.

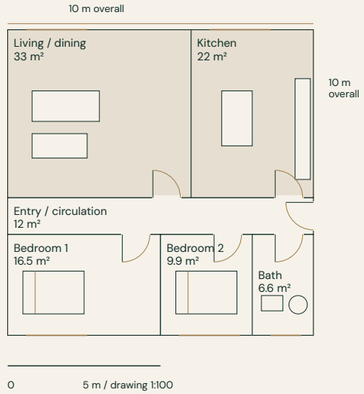


72 m² footprint
1 bedroom / 8 m² terrace

LINDEN COURT / LAYOUT B

Two bedrooms. Two useful choices.

The second bedroom can support a guest room or dedicated study. Living and kitchen zones remain separate in the comparison drawing, so their proportions are easy to assess.
The 100 m² footprint is split across six labelled zones. Each room area comes directly from its rectangle in the native plan.



100 m² footprint
2 bedrooms / 12 m² terrace

Consecutive plan pages 10â€“11 compare a 72 mÂ² one-bedroom footprint with a 100 mÂ² two-bedroom footprint. Drawings are schematic, not construction documents.

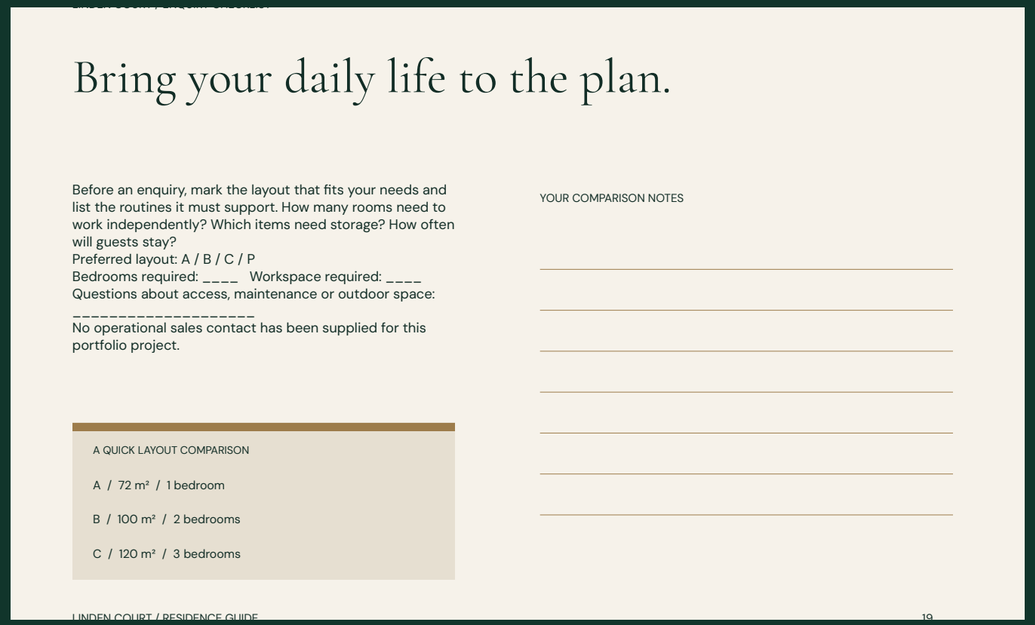
PORTFOLIO STUDY / BOARD 2 OF 3 / REVIEWED EDITION

LINDEN COURT

BOARD 3 / 3

LINDEN-COURT / ARCHITECTURE / RESIDENCE

Compare plans before deciding.



Bring your daily life to the plan.

Before an enquiry, mark the layout that fits your needs and list the routines it must support. How many rooms need to work independently? Which items need storage? How often will guests stay?
Preferred layout: A / B / C / P
Bedrooms required: ____ Workspace required: ____
Questions about access, maintenance or outdoor space:
_____
No operational sales contact has been supplied for this portfolio project.

YOUR COMPARISON NOTES

A QUICK LAYOUT COMPARISON

A / 72 m² / 1 bedroom

B / 100 m² / 2 bedrooms

C / 120 m² / 3 bedrooms

HOLLOW PINE

BOARD 1 / 3

HOLLOW PINE / HOSPITALITY EDITORIAL STUDY

BEFORE YOU ARRIVE

Bring less. Notice more.

A few useful things for your stay.

Pack shoes that can meet a muddy path, a warm layer for the evening and a raincoat that leaves your hands free. Bring a book you have been meaning to finish. A notebook is welcome; a full itinerary is optional.

WALK	Comfortable shoes and waterproof outerwear.
REST	A favourite book and clothes for unhurried days.
LISTEN	Headphones for your journey; quiet in shared rooms.

We provide linen, towels, filtered water and a walking map. Shared rooms are screen-free after 19:00. Wi-Fi is available in the arrival lounge. Ask us about step-free rooms before booking.

MAKE SPACE IN YOUR DIARY

Your pause starts here.

Choose a three-night stay, then leave the days open.

Arrivals are Monday and Thursday from 15:00. Departure is by 11:00 after breakfast. Each stay includes breakfast, evening supper and a short orientation walk. Lunch can be added when you reserve.

stay@hollowpine.example
hollowpine.example
18 Pine Lane, Alder Mere
Mereborough region

Tell us your preferred dates, room type and any access or dietary needs. We reply within two working days.

A fictional retreat created for this design portfolio. The address, offers and prices are illustrative.

1

A SMALL WOODLAND RETREAT

Leave room for quiet.

Hollow Pine Retreat

Three nights. Twelve rooms.
A slower way to spend a day.

Leave room for quiet.

A self-initiated woodland-retreat foldsheet balancing calm atmosphere with practical arrival, room and stay details.

THREE NIGHTS / TWELVE ROOMS

PORTFOLIO DESIGN / 1 OF 3 / FICTIONAL CONCEPT

HOLLOW PINE

BOARD 2 / 3

HOLLOW PINE / HOSPITALITY EDITORIAL STUDY

An invitation outside. Clear information inside.

1

A SMALL WOODLAND RETREAT

Leave room for quiet.

Hollow Pine Retreat

Three nights. Twelve rooms.
A slower way to spend a day.

01 / DAY RHYTHM

A day with room to breathe.

Join a moment.
Keep the rest for yourself.

Our rhythm is an invitation, not a timetable to complete. Begin with tea, walk as far as feels right and return when the light changes. Hosted moments are optional; the library and garden remain open throughout the day.

- 07:30 — Tea by the window
  A warm start in the shared lounge.
- 09:00 — Breakfast at the long table
  Seasonal plates and a plan for the weather.
- 11:00 — A walk through the pines
  A gentle 45-minute loop with a host.
- 16:00 — An open afternoon
  Read, sketch or sit beside the garden. Supper and a quiet evening
- 19:00 — One shared meal, then time of your own.

Paths can be uneven. The garden loop is step-free in dry weather; ask a host about current conditions.

02 / ROOMS & RATES

Simple rooms. Thoughtful details.

Twelve rooms, three ways to stay.

Pine Single — £420
1 guest / 4 rooms
A quiet room with a reading chair, single bed and private shower.

Moss Double — £690
2 guests / 6 rooms
A double bed, a small writing table and windows towards the trees.

Garden Twin — £720
2 guests / 2 rooms
Two beds, extra floor space and a step-free route from the lounge.

Prices are per room for three nights, including breakfast and supper. No single supplement applies to Pine Single. Taxes are included. Optional packed lunch: GBP 12 per guest, per day. Illustrative 2026 rates. Please confirm access needs before reserving.

2

03 / GETTING HERE

The last mile is a little slower.

Begin at Alder Mere station.
We will meet you there.

For this fictional route, Alder Mere station is the nearest rail stop. A shared transfer leaves at 14:30 on arrival days and returns after checkout. Reserve your seat at least five days before your stay.

- 01 / ARRIVE
  Meet your host by the station clock.
- 02 / TRANSFER
  A 20-minute drive to the woodland edge.
- 03 / SETTLE
  Tea, a room key and a short introduction.

Driving? Use the small car park at 18 Pine Lane. The final lane is narrow; please travel slowly. Detailed directions are included with your confirmation.

Fictional arrival route.

DESIGN DIRECTION / ILLUSTRATIVE VISITOR GUIDE

Arrive. Orient. Explore.

A proposed page system for a compact exhibition guide: a clear starting point, a simple route and help that is easy to find.

A cover-to-wayfinding language: navy for orientation, rust for the next action, open space for fast scanning.

THE GALLERY

FIRST LOOK

01 / VISITOR EDITION

BEGIN / EXPLORE / FIND HELP

CONCEPT ONLY / FICTIONAL VENUE / FINAL APPROVED PLAN AND ACCESS DETAILS REQUIRED

VISITOR EXPERIENCE / SAMPLE INTERIOR PAGE

Find your way, at a glance.

Example route: enter, view the two displays, then return to the staffed help point.

VISITOR FLOW / START - DISPLAY A - DISPLAY B - HELP

ILLUSTRATIVE NAVIGATION / NOT A VERIFIED FLOOR PLAN, ACCESSIBILITY MAP OR LIVE VENUE DIRECTORY

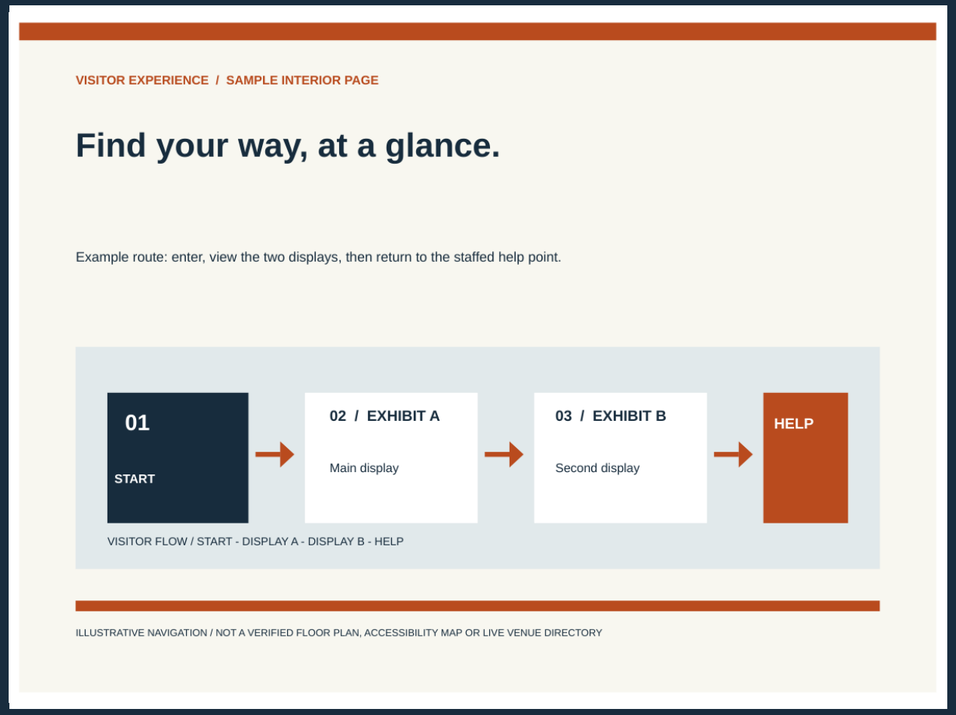
PORTFOLIO / BOARD 2 OF 3 / REVIEWED DESIGN STUDY

NORTHLINE

BOARD 3 / 3

NORTHLINE / VISITOR-GUIDE SPECIMEN

A route that readers can follow.



The visitor goes from entry to two exhibits, then the staffed help point. The sequence demonstrates wayfinding, without pretending to be a verified floor plan.

PORTFOLIO / BOARD 3 OF 3 / REVIEWED DESIGN STUDY

STRUCTURE

BOARD 1 / 3

STRUCTURE / DESIGN PORTFOLIO / STUDY

Read where surfaces meet.

Architectural editorial study of old and new materials through repeat, scale and detail.

BOARD 1/3 / NATIVE SOURCE / REVIEWED EDITION

STRUCTURE

BOARD 2 / 3

STRUCTURE / DESIGN PORTFOLIO / STUDY

From facade to detail.

Where old and new meet

A reflective façade can make a street read twice: once as a physical route and again as a surface of fragments. This publication studies that visual relationship without claiming authorship of the building.

Reflection is also a material.

DETAIL STUDY

Consecutive pages should avoid repeated crops without new interpretation.

BOARD 2/3 / NATIVE SOURCE / REVIEWED EDITION

STRUCTURE

BOARD 3 / 3

STRUCTURE / DESIGN PORTFOLIO / STUDY

Describe the junction.

The wider setting

A second view shifts from surface to street. Different scales make a publication feel like an observation, not a repeated image gallery.

A selected architectural detail requires credible plan and material evidence.

PUBLICATION PAGE 5 / REVIEWED EDITION PROOF

3.2 m service edge
North-facing glass

Schematic proposal; not a survey or construction document.

CONSECUTIVE PAGES 10-11 / AXONOMETRIC TO PLAN AND SECTION

HALVORSEN QUILL

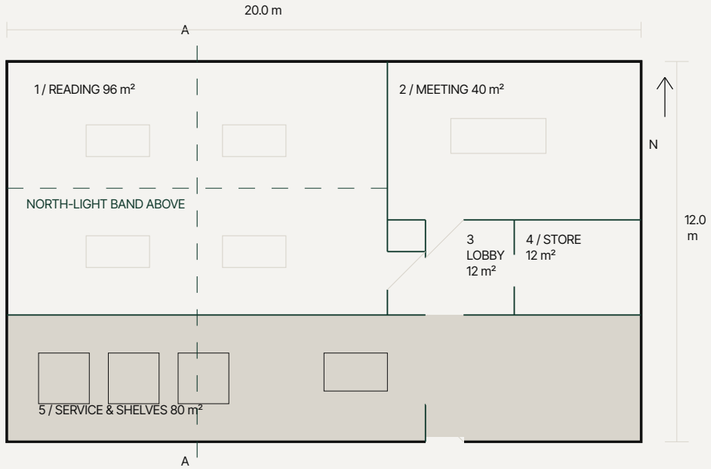
BOARD 3 / 3

One geometry.
Three views.

240 m²

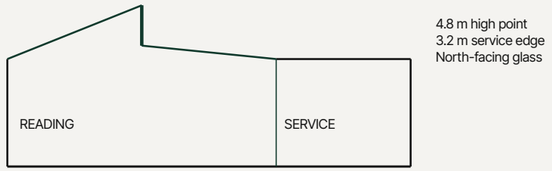
Five gross zones reconcile to one 20 × 12 m envelope. The north-south section cuts the same plan at x=6 m.

The study is authored geometry. It does not claim to survey the buildings shown in the reference photographs.



AREA KEY / 96+40+12+12+80=240 m² / WALLS INCLUDED

SECTION A-A / NORTH LIGHT / SCALE 1:125



Schematic proposal; not a survey or construction document.

ENLARGED DETAILS / DO NOT SCALE THIS BOARD

QUARTERLY INDEX

BOARD 1 / 3

QUARTERLY INDEX / ISSUE 01

Every number needs a second question.

A 28-page publication follows volume, service and cost through one transparent operating model.

Native diagrams, charts and tables.
All model data and formulas included.

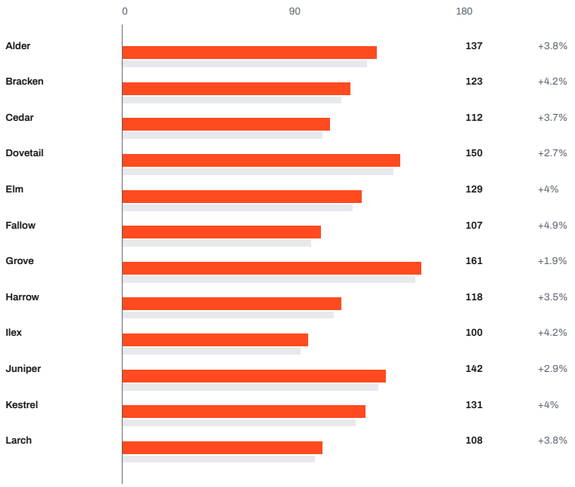
QUARTERLY INDEX

Evidence, then interpretation.

ANALYSIS / TWELVE OPERATORS

Who drove the growth?

Q1 to Q2 / thousand orders / shared scale



Q2: orange / Q1: grey. All bars start at zero.
Grove leads volume; Fallow leads percentage growth.

Synthetic operators and periods. Comparison uses the source model, not a real-world market survey.

ANALYSIS / READING THE TOTAL

Growth has a denominator.

+3.5%

52,000 more orders.
Not twelve identical stories.

The model rises from 1,466,000 to 1,518,000 orders. Dividing the 52,000 increase by the Q1 total gives 3.5% after rounding. This is aggregate growth, not an average of the twelve percentages.

Fallow rises from 102,000 to 107,000: 4.9%. Grove rises from 158,000 to 161,000: 1.9%. A smaller percentage can accompany a larger operation. Keep volume and rate together.

READ THE PERIOD AS WELL AS THE NUMBER
This quarter model is separate from Cedar's weekly before-and-after case. Combining their totals would create a false comparison.

CONSECUTIVE PAGES 12-13 / SHARED SCALE, EXPLICIT DENOMINATOR

QUARTERLY INDEX

BOARD 3 / 3

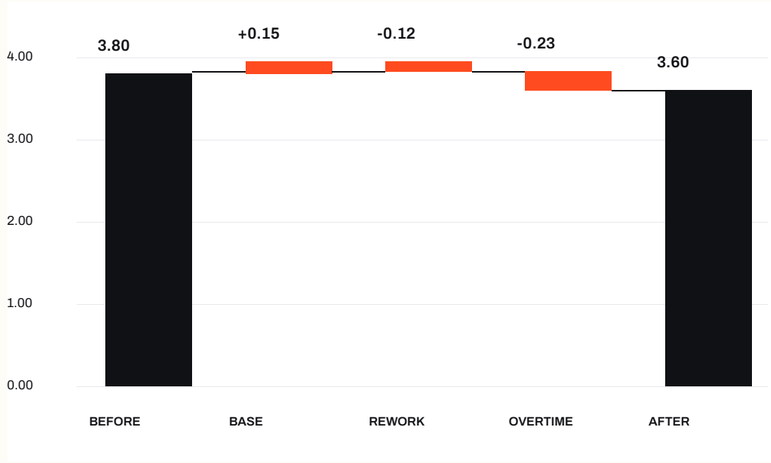
Lower unit cost. Higher weekly bill.

GBP 3.80 to 3.60

GBP 15,200 to 15,840

The cost bridge exposes all three changed inputs. The seven-result table keeps the period and before/after columns explicit.

Authored weekly scenario.
No observed or causal savings claim.



MEASURE / WEEKLY MODEL	BEFORE	AFTER
Orders / week	4,000	4,400
On-time dispatch	91%	96%
Rework / share	3%	2%
Rework / orders	120	88
Overtime / hours	180	120
Unit cost / GBP	3.80	3.60
Total cost / GBP	15,200	15,840

MATERIAL

BOARD 1 / 3

MATERIAL / DESIGN PORTFOLIO / STUDY

From process to surface.

An editorial craft study of material decisions, making processes and applications.

BOARD 1/3 / NATIVE SOURCE / REVIEWED EDITION

MATERIAL

BOARD 2 / 3

MATERIAL / DESIGN PORTFOLIO / STUDY

Make, observe, understand.

Quino Al quinoal / CC0

Preparation is part of the design.

Tools tend to receive attention because they are visible. Preparation is less photogenic. A clean working surface, suitable water and a consistent body of clay are conditions for the work rather than features of the final object.

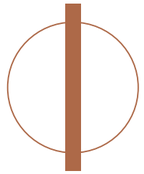
The same principle applies to publication design. A good layout depends on text that is ready to use, photographs with known sources and product information that can be checked. The page should not disguise missing information with decoration.

In both settings, control begins before the most visible action. This does not make the work predictable. It gives the maker a more reliable starting point from which to respond.

MATERIAL / OBJECTS, PLACES, PROCESS 06

OBSERVATION / 01

What a surface can tell us.



CONTACT / CONTEXT / INTERPRETATION

Native graphic study; not a reconstruction of a making technique.

Reading the surface.

Marks on a vessel can reveal contact, but they need context. A line may be intentional, incidental or the result of a later process. It is tempting to turn every visible irregularity into a story about craftsmanship; careful observation

resists that shortcut.

A useful editorial page leaves room for uncertainty. The caption can say what the photograph shows. The essay can explain a general principle. Neither needs to invent an interview or attribute a private intention to someone who

was not consulted.

For this feature, the relationship between hand and material provides the organising idea. Full imagery establishes the subject, narrow text columns slow the reading pace, and the detail page separates observation from interpretation.

MATERIAL / OBJECTS, PLACES, PROCESS 07

BOARD 2/3 / NATIVE SOURCE / REVIEWED EDITION

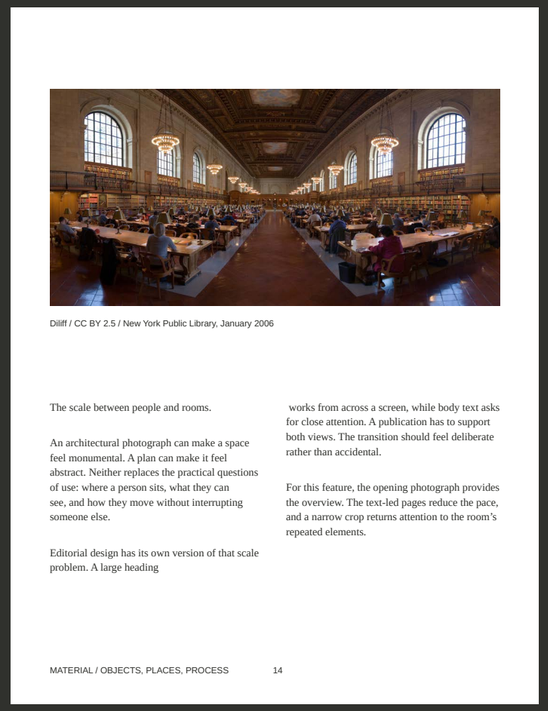
Consecutive craft pages connect process to visible material consequences.

MATERIAL

BOARD 3 / 3

MATERIAL / DESIGN PORTFOLIO / STUDY

Record the evidence of making.



Diliff / CC BY 2.5 / New York Public Library, January 2006

The scale between people and rooms.

An architectural photograph can make a space feel monumental. A plan can make it feel abstract. Neither replaces the practical questions of use: where a person sits, what they can see, and how they move without interrupting someone else.

Editorial design has its own version of that scale problem. A large heading works from across a screen, while body text asks for close attention. A publication has to support both views. The transition should feel deliberate rather than accidental.

For this feature, the opening photograph provides the overview. The text-led pages reduce the pace, and a narrow crop returns attention to the room's repeated elements.

MATERIAL / OBJECTS, PLACES, PROCESS 14

BOARD 3/3 / NATIVE SOURCE / REVIEWED EDITION

An enlarged proof sequence pairs craft-process imagery with contextual source captions.

PUBLICATION PAGE 14 / REVIEWED EDITION PROOF

BOARD 2/3 / NATIVE SOURCE / WORK IN PROGRESS

FIELDNOTE

BOARD 3 / 3

FIELDNOTE / DESIGN PORTFOLIO / STUDY

Three stages. One return.

01

01 / MORNING

Walk without rushing

Begin with the easiest marked path. Keep the first hour unhurried so everyone can settle into a comfortable pace. Choose one place to stop for a snack rather than trying to cover every viewpoint. Record the weather and ground conditions before you move on.

02

02 / AFTERNOON

Pause at the water

Find a designated rest area with a clear route back. Eat, refill water where safe and review the return time. Leave space in the plan for a change in weather. Do not treat the photographs as a map or proof of route access.

03

03 / RETURN

Leave the place well

Return by a known, permitted path. Take litter with you and stay on marked routes. Keep a short note of what worked, what felt too ambitious and what you would bring next time. A good weekend leaves room for a second visit.

Leave a landing place.

A landing place names the current file, what changed and what happens next. Keep the version unambiguous so the reader opens the right attachment.

Identify the decision owner. Write as if handing the task to someone who has not been thinking about it all afternoon.

The point is to make the thread easier to find.

Place and participation.

COMMUNITY / 02

The work behind a welcome

Plan the session before inviting everyone in.

Begin with a small task

A shared project needs a task that can be explained quickly. Clearing one bed or sorting a box of tools gives newcomers an immediate way to contribute. Keep the first session short enough that finishing feels possible.

Agree who opens the space, checks the equipment and records the next step. A welcome is easier when responsibility does not sit with one person.

Make joining easy

Explain the meeting place, the time and what to bring in plain language. Offer a seated task as well as a physical one. New participants should be able to ask a question without interrupting work.

After the session, write a short update. Record what changed, what is still needed and who has agreed to follow up.

01 / PREPARE 02 / WELCOME 03 / RECORD

Repair, reuse, repeat

A repair session works best as a conversation, not a queue of promises. Start by describing the problem, checking the available tools and agreeing whether the task is within the group's ability. Keep unsafe equipment out of use and refer specialist work to a qualified repairer.

The most useful result may be a diagnosis and a next step rather than a finished repair.

CHECK TOOLS / KNOW LIMITS / AGREE THE NEXT STEP

The middle pages connect people, work and neighbourhood resources.

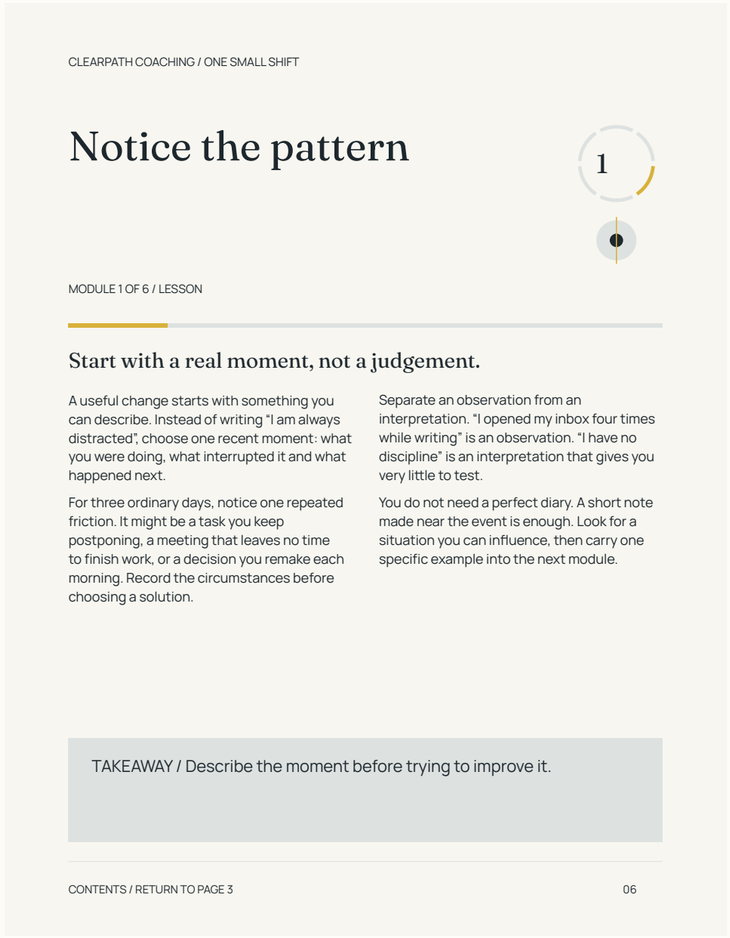
The cover turns the six actions into a compact graphic vocabulary. Interior pages preserve generous response space.

28 PAGES / 35 FILLABLE FIELDS

CLEARPATH COACHING

BOARD 2 / 3

Read. Try. Record.



CLEARPATH COACHING / ONE SMALL SHIFT

Notice the pattern

1

MODULE 1 OF 6 / LESSON

Start with a real moment, not a judgement.

A useful change starts with something you can describe. Instead of writing "I am always distracted", choose one recent moment: what you were doing, what interrupted it and what happened next.

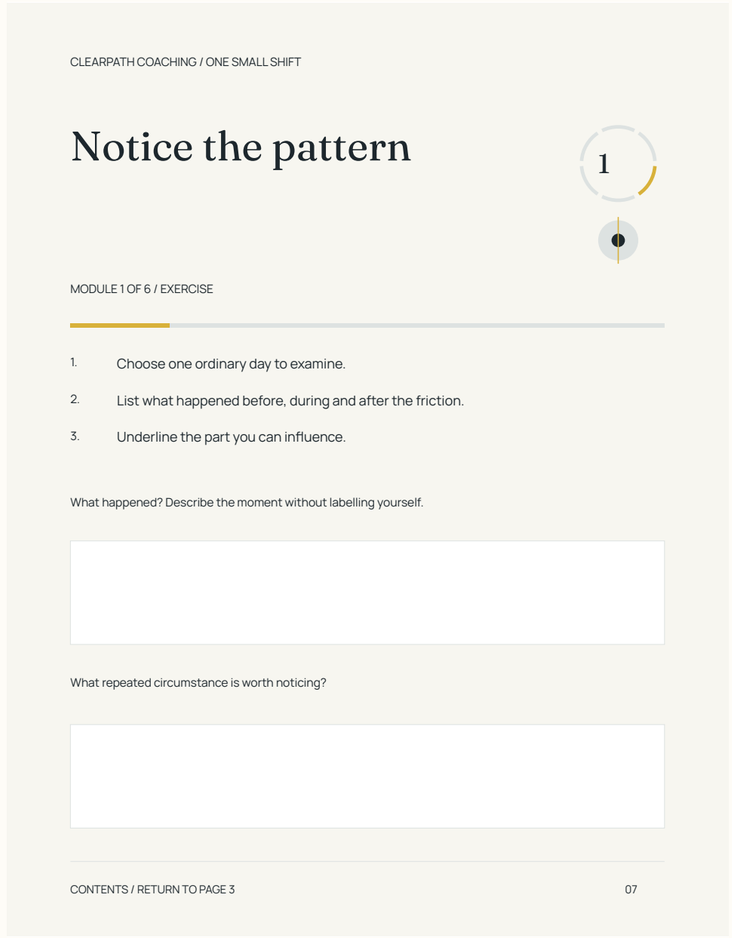
For three ordinary days, notice one repeated friction. It might be a task you keep postponing, a meeting that leaves no time to finish work, or a decision you remake each morning. Record the circumstances before choosing a solution.

Separate an observation from an interpretation. "I opened my inbox four times while writing" is an observation. "I have no discipline" is an interpretation that gives you very little to test.

You do not need a perfect diary. A short note made near the event is enough. Look for a situation you can influence, then carry one specific example into the next module.

TAKEAWAY / Describe the moment before trying to improve it.

CONTENTS / RETURN TO PAGE 3 06



CLEARPATH COACHING / ONE SMALL SHIFT

Notice the pattern

Aldous & Pike

Clarity for the decisions ahead.

BUSINESS ADVISORY
Six areas. One clear starting point.

THE PRACTICE

Advice begins with the decision in front of you.

A focused advisory practice for owners, founders and the teams responsible for their next move.

Aldous & Pike brings commercial questions into a clear working brief. We begin with the proposed decision, identify the documents and people involved, and agree the scope before work starts. Each matter has a named point of contact and a practical next step. The practice areas opposite help you find the right starting point.

PARTNERS / A NAMED POINT OF CONTACT

Eleanor Aldous

Commercial matters

Coordinates business agreements, ownership questions and transactions. Her working approach is to clarify the decision, establish the document trail and keep responsibilities visible.

Thomas Pike

People and operations

Coordinates employment, property and dispute matters. His working approach is to agree priorities, surface unresolved questions and explain the next stage in plain language.

PRACTICE AREAS

Find your starting point.

01 **Corporate & governance**
Ownership, board decisions and business structures.
Start with: your structure and the decision to be made.

02 **Commercial agreements**
Terms for customers, suppliers and collaborations.
Start with: the draft agreement and commercial priorities.

03 **Employment & people**
Workplace documentation and organisational change.
Start with: the relevant policy, timeline and people involved.

04 **Property & occupancy**
Premises, leases and operational requirements.
Start with: the property details and proposed terms.

05 **Dispute resolution**
A structured review of a disagreement and possible routes.
Start with: the correspondence and key dates.

06 **Private business succession**
Continuity, ownership transition and future responsibilities.
Start with: the current ownership and intended transition.

Actual outside/inside pages demonstrate how the folded sheet supports enquiries.

CALLOWAY

BOARD 2 / 3

CALLOWAY / BUSINESS / ANNUAL REPORT

Investment context / Operational readiness

LOGISTICS

Make the handoff inspectable.

Logistics / operating model

1 **Receive / confirm specification**

2 **Sort / establish next destination**

3 **Dispatch / record custody**

4 **Review / inspect exceptions**

A received job needs a confirmed specification before it enters the operating queue. Sorting establishes the next destination. Dispatch records custody, timing and exceptions. Review then checks where delays or rework occurred.

The four stages give managers a common language for following work. The diagram remains intentionally conceptual: it demonstrates editable information design without inventing a real terminal plan, route distance or geographic location.

LOGISTICS

Protect the work already in motion.

Logistics / next decisions

The division receives £75m of the capital programme. The operational question is which capacity constraint that spending addresses and how existing work will continue during implementation. A new asset creates little value if the handoffs around it remain unclear.

The review agenda should pair financial progress with readiness evidence: staffing, maintenance, exception handling and the date at which the new capacity can be used. The report does not claim an improvement before that evidence exists.

DECISION TEST / LOGISTICS CAPITAL PROGRAMME

01 / CAPACITY

Which constraint will the £75m allocation resolve?

02 / READINESS

Confirm staffing, maintenance and handoffs.

03 / EVIDENCE

Review exceptions and the date capacity can be used.

A new asset is not an outcome until the operating system around it is ready.

PORTFOLIO STUDY / BOARD 2 OF 3 / REVIEWED EDITION

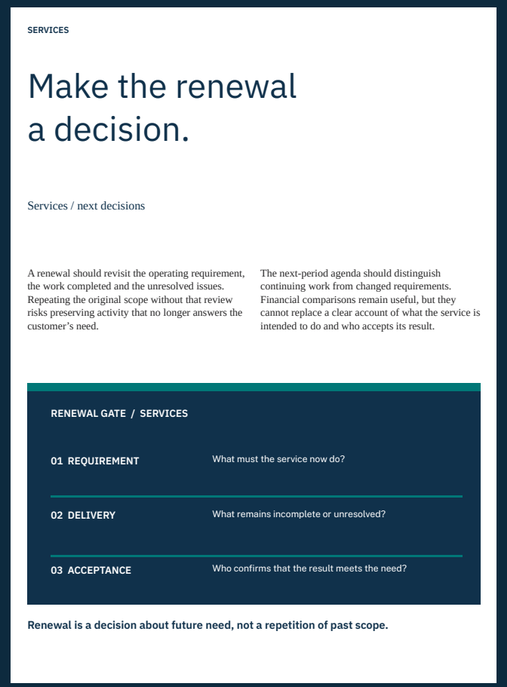
Consecutive pages 16â€“17 lead into the logistics capital-allocation decision panel, distinguishing spend from operational readiness and evidence.

CALLOWAY

BOARD 3 / 3

CALLOWAY / BUSINESS / ANNUAL REPORT

Renewal is a decision.



SERVICES

Make the renewal a decision.

Services / next decisions

A renewal should revisit the operating requirement, the work completed and the unresolved issues. Repeating the original scope without that review risks preserving activity that no longer answers the customer's need.

The next-period agenda should distinguish continuing work from changed requirements. Financial comparisons remain useful, but they cannot replace a clear account of what the service is intended to do and who accepts its result.

RENEWAL GATE / SERVICES

01 REQUIREMENT	What must the service now do?
02 DELIVERY	What remains incomplete or unresolved?
03 ACCEPTANCE	Who confirms that the result meets the need?

Renewal is a decision about future need, not a repetition of past scope.

Page 25 turns a services narrative into an editable requirement, delivery and acceptance review framework.

CIVIC

An operational view of shared energy.

Q1	Q2	Q3	Q4
1050	1150	1250	1350

4,800 MWh / FOUR QUARTERS / ONE RECONCILED YEAR

A publication and information-design study

A year of shared energy.

An illustrative operating review organised around quarterly evidence, financial reconciliation and the distinction between reference imagery and measured performance.

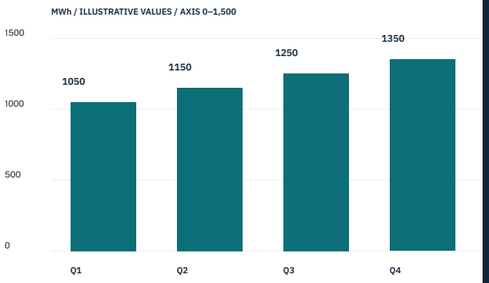
PORTFOLIO STUDY / BOARD 1 OF 3 / REVIEWED EDITION

CIVIC / ENERGY / PERFORMANCE

Quarterly generation / Financial reconciliation

Generation across the year.

Quarterly totals sum to the annual figure. Chart elements remain editable in InDesign.



Quarter	Generation / MWh	Share of year
Q1	1,050	21.9%
Q2	1,150	24.0%
Q3	1,250	26.0%
Q4	1,350	28.1%

04 / SAMPLE FINANCIALS

A reconciled financial summary.

All values below are illustrative and presented in thousands of dollars.

2024 LIGHT / 2025 TEAL / $000

Line item	2024 / $000	2025 / $000
Revenue	980	1,200
Operating costs	620	720
Operating surplus	360	480
Capital expenditure	240	300

Calculation note

Operating surplus equals revenue less operating costs. Capital expenditure is shown separately and is not deducted in this simplified surplus measure.

Comparison note

Revenue rises by $220,000 in the sample period. Operating costs rise by $100,000, resulting in a $120,000 increase in operating surplus.

CIVIC / Operational review / 5

PORTFOLIO STUDY / BOARD 2 OF 3 / REVIEWED EDITION

Original synthetic programme model.
Targets, results and the gap between them.

PORTFOLIO STUDY / BOARD 1 OF 3 / REVIEWED EDITION

Progress you can trace.

A synthetic environmental impact story grounded in checkpoints and targets, separating cumulative flows from recurring stocks instead of overstating outcomes.

FERNLOOP

BOARD 2 / 3

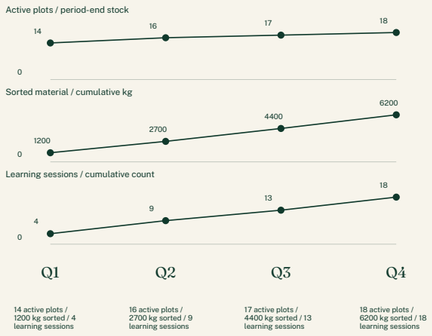
FERNLOOP / IMPACT / SUSTAINABILITY

Measure the result / Read the timeline

FERNLOOP / PROGRESS TIMELINE

Four checkpoints. One annual model.

Cumulative current-year outputs / authored scenario



14 active plots / 1200 kg sorted / 4 learning sessions

16 active plots / 2700 kg sorted / 9 learning sessions

17 active plots / 4400 kg sorted / 13 learning sessions

18 active plots / 6200 kg sorted / 18 learning sessions

Sorted mass and sessions are cumulative. Active plots are a period-end stock. Do not sum the four plot counts.

FERNLOOP / 2026 AUTHORED SCENARIO 16

FERNLOOP / PROGRESS / READING THE TIMELINE

A stock is not a flow.

The period belongs beside the number.

The number of active plots is measured at each checkpoint. A plot that remains in use can appear in all four counts. Adding fourteen, sixteen, seventeen and eighteen would count the same continuing spaces repeatedly.

Sorted mass is a cumulative flow in this scenario. Its quarter-end values rise from 1,200 to 6,200 kilograms. The fourth-quarter increment is 1,800 kilograms: 6,200 minus 4,400.

Learning sessions are also cumulative. The model ends with eighteen sessions, matching the annual metric. Its quarterly increments are four, five, four and five.

The chart on the next page keeps the cumulative series on one shared scale. This is a consistency check inside an authored model, not an observed seasonal trend or forecast.

STOCK / COUNT AT CHECKPOINT	FLOW / ACCUMULATED OVER TIME
18	6,200 kg
ACTIVE PLOTS AT YEAR-END	SORTED MASS BY YEAR-END

Q4 increment: 1,800 kg. Active plots are not additive across checkpoints.

2026 scenario checkpoints. The model has no sampled real-world time series.

FERNLOOP / 2026 AUTHORED SCENARIO 17

PORTFOLIO STUDY / BOARD 2 OF 3 / REVIEWED EDITION

Consecutive pages 16â€“17 pair the progress chart with a stock-versus-flow explainer: 18 active plots and 6,200 kg cumulative sorted mass.

FERNLOOP

BOARD 3 / 3

FERNLOOP / IMPACT / SUSTAINABILITY

Show the remaining gap.

FERNLOOP / GROWING / RESULTS

See the remaining gap.

GROWING / four measures, with baseline and target.

Active plots

plots / baseline 12 / current 18 / target 20

Remaining gap 2 plots

Garden participants

unique people / baseline 80 / current 128 / target 150

Remaining gap 22 unique people

Compost processed

kg / baseline 1200 / current 2100 / target 2400

Remaining gap 300 kg

Volunteer time

hours / baseline 300 / current 480 / target 600

Remaining gap 120 hours

Bars start at zero; dark tick = baseline, lime tick = target. Each row uses its own scale. All results are synthetic.

FERNLOOP / 2026 AUTHORED SCENARIO 11

Page 11 makes targets, baselines, measured points and remaining gaps legible while retaining the synthetic-model caveat.

PORTFOLIO STUDY / BOARD 1 OF 3 / REVIEWED EDITION

Better questions. Clearer agreements.

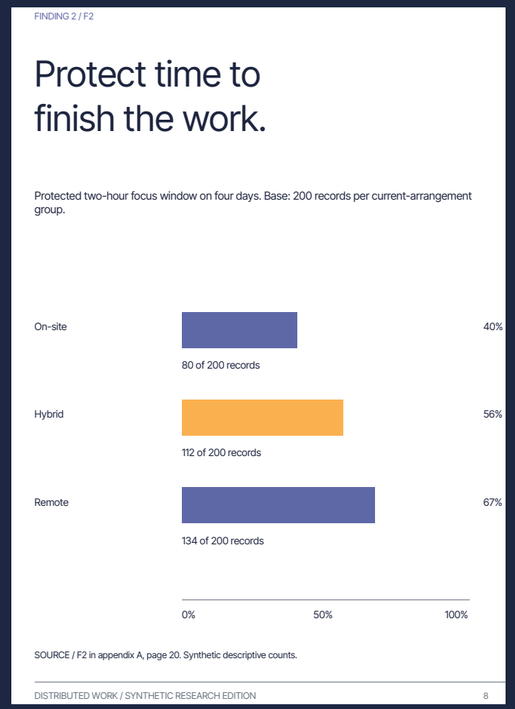
A synthetic six-finding research edition that turns grouped survey records into transparent, action-able workplace questions without claiming causal effects.

DISTRIBUTED WORK

BOARD 2 / 3

DISTRIBUTED-WORK / RESEARCH / WORK PRACTICE

Protected focus / Reading the result



FINDING 2 / F2

Protect time to finish the work.

Protected two-hour focus window on four days. Base: 200 records per current-arrangement group.

SOURCE / F2 in appendix A, page 20. Synthetic descriptive counts.

DISTRIBUTED WORK / SYNTHETIC RESEARCH EDITION 8

F2 / READING THE RESULT

27 pp

separates remote and on-site focus-window rates.

The protected-focus flag is set for 80 on-site, 112 hybrid and 134 remote records. With 200 records in each group, those counts become 40%, 56% and 67%. Across the whole sample, 326 of 600 records carry the flag, or 54.3% when rounded to one decimal place.

A protected window means a planned two-hour block available on at least four days in the defined week. It does not mean the block was uninterrupted, productive or suitable for every role. Customer support, care work and operational coverage may need different arrangements.

The 27-percentage-point gap is a description of the constructed groups, not an estimate of an effect. A percentage point is the difference between two rates: 67% minus 40%. It is not a 27% relative increase.

A manager can use the example to ask a practical question: where can the team reserve finishing time without leaving essential work uncovered? Agree on the window, the exceptions and the person handling urgent contact. Record completion and interruptions separately. Avoid treating a calendar block as evidence of output quality. Compare the same tasks over time before changing the agreement.

TRY / Schedule one protected block with a coverage rule. Record interruptions separately from task completion.

DISTRIBUTED WORK / SYNTHETIC RESEARCH EDITION 9

PORTFOLIO STUDY / BOARD 2 OF 3 / REVIEWED EDITION

Consecutive pages 8â€“9 put the original evidence beside its new three-group visual: 40% on-site, 56% hybrid and 67% remote.

DISTRIBUTED WORK

BOARD 3 / 3

DISTRIBUTED-WORK / RESEARCH / WORK PRACTICE

From percentage to practice.

F4 / READING THE RESULT

48%

of remote records carry the positive support flag.

Support during the first month is positive for 110 on-site, 104 hybrid and 96 remote records: 55%, 52% and 48%. The range is narrower than the focus-window example. The whole-sample count is 310 of 600, or 51.7%.

The flag describes a hypothetical report of available support. It does not measure time to competence, retention or satisfaction. A named contact and a predictable check-in can make support easier to request, but this dataset cannot establish how well those practices work.

A real onboarding review should define when the first month starts, which support channels count and whether a response arrived in time. A document repository is not automatically a substitute for a person who can explain local context.

Separate access to information from access to help. Prepare a short starting route, then give the newcomer a named contact and a backup. Ask about the first blocked task rather than sending only a broad satisfaction question. Review the experience at agreed intervals. Different roles and levels of prior experience may need different measures, so avoid ranking teams from this single flag.

TRY / Name a primary and backup contact. Record the first blocked task and the time taken to get useful help.

DISTRIBUTED WORK / SYNTHETIC RESEARCH EDITION 13

Page 13 illustrates first-month support rates by arrangement, preserving exact 110/200, 104/200 and 96/200 records.

BRIGHTMOOR SOLAR / COMPANY PROFILE

**One roof.
An open model.**

WORKED EXAMPLE / FICTIONAL HOME
No battery. All figures describe one illustrative year.

Installed DC capacity	12 x 500 Wp = 6 kWp
Assumed specific yield	1,100 kWh/kWp/year
Annual generation	6 x 1,100 = 6,600 kWh
Used in the home / 60%	3,960 kWh/year
Exported / 40%	2,640 kWh/year
Import tariff assumption	GBP 0.30/kWh
Export payment assumption	GBP 0.05/kWh

Yield is a single annual assumption, including system losses. No location, shade, roof direction or seasonal forecast is claimed. Tariffs are hypothetical, not current market offers.

FICTIONAL BRAND / ILLUSTRATIVE MODEL 08

BOARD 3/3 / NATIVE SOURCE / REVIEWED EDITION

The enlarged capacity diagram makes the worked-model assumptions visible.
